# NEWSLETTER

**January 16 - 31, 2005**

# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **January 16-31, 2005.**

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse/clearinghouse.shtml](http://www.opr.ca.gov/clearinghouse/clearinghouse.shtml)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Associate Planner

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

## MEMORANDUM

### Governor's Office of Planning and Research State Clearinghouse

**Date:** December 5, 2003

**To:** All CEQA Lead Agencies

**From:** Terry Roberts, Director, State Clearinghouse

**Re:** Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CDs must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov).

**KEY:**

NOP	Notice of Preparation
EIR	Draft Environmental Impact Report
ND/MND	Negative Declaration/Mitigated Negative Declaration
NOD	Notice of Determination
NOE	Notice of Exemption
EA	Environmental Assessment (federal)
EIS	Environmental Impact Statement (federal)
OTHER	Other types including Final EIRs, Early Consultation, etc.

**NOTE:**

There are more Total Documents than Total Projects because there are often multiple environmental documents filed for any individual project.

# CEQA Documents

## Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

## CEQA Actions

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Tuesday, January 18, 2005</u></b>			
2005011078	Site Plan Review Application No. S-04-547 Fresno, City of Fresno--Fresno Mini storage facility.	<b>CON</b>	01/28/2005
2005014006	Ellicott Slough NWR Proposed Buena Vista Addition U.S. Fish and Wildlife Service Watsonville--Santa Cruz The Service is proposing to expand the approved refuge boundary to include the entire 289-acre Buena Vista property (3 parcels), accept fee-title ownership of the two smaller parcels, and cooperatively manage the entire Buena Vista property as a unit of the Ellicott Slough National Wildlife Refuge and State Ecological Reserve under a Memorandum of Understanding with CDFG.	<b>EA</b>	02/18/2005
2005014007	Environmental Assessment for Low-Level Flight Testing, Evaluation, and Training U.S. Air Force --Kern, Inyo, San Bernardino The proposed action is to continue use of flight test and training routes as they have been used in the past. Future continued use represents an overall 7% decrease with the proposed changes distributed on the various routes on the basis of future flight needs and updated aircraft types.	<b>EA</b>	02/16/2005
2004061034	Valley Central Shopping Center Lancaster, City of --Los Angeles The proposed project involves demolition of 279,203 SF of building area, which includes all of the existing buildings except for the previously demolished House-2-Home structure. The Costco building on the southwest portion of the site will be replaced with the larger Wal-Mart building. All three of the existing freestanding pads on the northeast side of the center will be demolished and replaced with a 135,100-SF building to accommodate one to three retail tenants.  The revitalized center will consist of a new 218,500-SF Wal-Mart building, three retail shops totaling approximately 135,100 SF of space, and three freestanding restaurants and/or shops totaling approximately 9,900 SF. The revitalized shopping center and the 24,080 SF 99 Cent Only Store will include a total of approximately 387,580 SF of retail space; a net increase of approximately 4,377 SF compared to the existing building area.	<b>EIR</b>	03/03/2005
2004032126	Shastina Ranch Subdivision Redding, City of Redding--Shasta Shastina Ranch General Plan Amendment, Rezone and Tentative Subdivision Map and Amendment to the Redding Municipal Airport Comprehensive Land Use Plan (CLUP). The proposed project would create approximately 446 residential parcels on 223.8 acres.	<b>FIN</b>	

## CEQA Daily Log

Documents Received during the Period: 01/16/2005 - 01/31/2005

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Tuesday, January 18, 2005</u></b>			
2005012076	Natomas Landing Sacramento, City of Sacramento--Sacramento The 69.5-acre project site in the northwestern portion of Sacramento County would reconfigure the existing acreages to Highway Commercial, regional Commercial, and freeway buffer and open space uses within the North Natomas Community Plan. The project would include 5.4 acres of Highway Commercial uses, 54 acres of Regional Commercial, and 10.1 acres of freeway buffer and open space uses.	<b>NOP</b>	02/16/2005
2005012077	Barrington Project Brentwood, City of Brentwood--Contra Costa The proposed project involves the development of a 160-acre residential community. The project consists of a 494-unit residential subdivision, 7.8-acre storm water detention basin, development of a 12-acre elementary school, a 1.1-acre fire station facility, three neighborhood parks totaling 7.8 acres, and recreation trails as well as the infrastructure improvements necessary to accommodate the new development.	<b>NOP</b>	02/16/2005
2002021025	Oakhurst Area Plan Madera County Planning Department Madera--Madera The project is the Oakhurst Area Plan. The Area Plan refines and updates the County General Plan and supercedes the 1980 Oakhurst/Ahwahnee Growth Management Plan.	<b>Neg</b>	02/16/2005
2004062147	Lake 20 - Roadway Rehabilitation & Curve Realignment Project Caltrans Clearlake--Lake The California Department of Transportation, in conjunction with the Federal Highway Administration, have prepared A Draft Initial Study / Environmental Assessment (IS/EA) on the proposed State Route 20 corridor between 12.7 km (7.9 mi) east of the City of Clearlake Oaks and 2.5 km (1.5 mi) west of Walker Ridge Road. The project may also include construction of a retaining wall to stabilize areas, and improvement of distressed pavement by overlaying roadway with asphalt concrete.	<b>Neg</b>	02/17/2005
2005011075	Construction of Verdugo Lane between Brimhall Road and Shellabarger Road Kern County Bakersfield--Kern The Kern County Roads Department proposes to construct a two-lane paved roadway, approximately 1,300 feet in length. Each lane would be a minimum of 12 feet wide, with a combination paved and dirt shoulders on both sides of the roadway. Existing utilities, which would conflict with the project design, would be relocated. An existing, out of service, irrigation line and check system would be removed and disposed of. All trees within the existing right-of-way would be removed. Two small structures (a small building and horse walker) would be relocated. Various fences and gates would be removed. Four double chain link gates, one rolling chain link gate, two wooden gates, and chain link and wooden fences would be constructed. An out of service water well would be properly destroying under permit with the Kern County Environmental Health Services Department. Construction of that portion of the project lying within Brimhall Road would be coordinated with the City of Bakersfield.	<b>Neg</b>	02/16/2005

<b><u>Documents Received on Tuesday, January 18, 2005</u></b>			
2005011076	Chevron Relocation Project Los Angeles County Department of Regional Planning --Los Angeles Demolition, relocation, and reconstruction of a 24-hour gasoline station with a car wash and convenience store that sells alcoholic beverages for off-site consumption. Application also includes removal of one and encroachment of one other oak trees. Solid fill 165,000 cubic yards of materials will be deposited on an adjacent parcel.	<b>Neg</b>	02/16/2005
2005011077	Big Rock Creek Siphon Turnout Antelope Valley-East Kern Water Agency Palmdale--Los Angeles The project involves the necessary improvements to provide a maximum annual delivery of 1,700 AF or a maximum instantaneous flow rate of 10,000 gpm of AVEK's long-term water supply contracted Table A allotment obtained from the existing south Big Rock Creek Siphon blowoff structure to the edge of the Department of Water Resources right-of-way for future use by the Scattaglia orchard filters and pumps, and to the Crystallaire golf course pond. The necessary improvements include connection to the existing blowoff structure, approximately 130 linear feet of 20-inch diameter transmission piping, and a meter and metering vault.	<b>Neg</b>	02/16/2005
2005011079	Little Guys and Gals Park Improvement Livingston, City of Livingston--Merced The City of Livingston will renovate park facilities, construct a parking lot, and install new light poles at a 1.75 acre park site.	<b>Neg</b>	02/16/2005
2005011080	1998-143-MND Los Angeles City Planning Department --Los Angeles The proposed project is for the expansion of an existing 400 tons per day Construction and Demolition Waste processing and recycling operation. The site is zoned M2-1G. The proposed expansion is to develop the facility into a Large Volume Transfer/Processing Facility that will integrate the existing construction and demolition waste processing and recycling operation into an overall multi-purpose materials recovery facility (MRF)/transfer station facility that will also have the expanded capability of processing and recovering recyclables from mixed use municipal solid waste, from commingled source separated recyclables, from materials separated for reuse, and from "high fiber/dry routes". The proposed site is currently a fully developed 4.9 acre site with all required utilities completely paved with concrete, a truck scale, truck washing bay, clarifier, and completely fenced with 2 gates, and an on-site office. The current operations are conducted in open air (uncovered and not enclosed within a building).	<b>Neg</b>	02/16/2005
2005011081	ENV-2004-6220-MND Los Angeles City Planning Department --Los Angeles Specific Plan Exception, Zoning Administrator Adjustment, Zone Variance, Coastal Development Permit, and Project Permit Compliance to permit the construction of a new 3-story, mixed-use building for one Artist-In-Residence unit above a ground floor retail use with 4 on-site parking spaces.	<b>Neg</b>	02/16/2005

<b><u>Documents Received on Tuesday, January 18, 2005</u></b>			
2005012071	Santa Rosa Creek Pierson Reach Restoration Project - Prince Memorial Greenway to Joe Rodota Trail Connector Santa Rosa, City of Santa Rosa--Sonoma The project consists of the construction of an approximately 150' connector path along the bank of Santa Rosa Creek between the Prince Memorial Greenway and the Joe Rodota Trail.	<b>Neg</b>	02/16/2005
2005012072	Sycamore Valley Preserve Land Use Plan East Bay Regional Parks District Danville--Alameda The project proposes modest improvements to open the Preserve to the public.	<b>Neg</b>	02/16/2005
2005012073	Shapell Bonfante Gardens Project Gilroy, City of Gilroy--Santa Clara The project proposes a General Plan Amendment and rezoning of a 32.7-acre site to allow for development of 118 single-family dwelling units and a 2.95-acre private recreation area.	<b>Neg</b>	02/16/2005
2005012074	Sierra Terrace Grass Valley, City of Grass Valley--Nevada The project "Sierra Terrace" consists of Development Review 04DRC-37, Tentative Map 04PLN-21, Planned Unit Development 04PLN-22, and Use Permit 04PLN-23 Applications, to develop 28, 2-story, residential units, consisting of six duplexes, three fourplexes, and one four unit apartment on 2.29 acres. Each unit would be 1,260 SF in size. The buildings would be 28 feet in height. The project would include a one car garage and two outdoor parking spaces for each unit creating a total of 78 parking spaces (52 parking spaces are required). The project includes the following applications: a Development Review, a Tentative Map to subdivide the property into 25 lots, a Planned Unit Development to allow flexibility in the City development standards and a Use Permit to allow residential uses in the Commercial Zoning District.	<b>Neg</b>	02/16/2005
2005012075	Skycrest Project San Bruno, City of San Bruno--San Mateo The project site is currently developed with the Skycrest Center, about 41,000 SF of retail space on a 5.6-acre site. The proposed project includes complete demolition of the existing 23,500 SF of "in-line" retail and two retail pad structures on the southeastern 2.59 acres of the site and replacement with residential uses. The proposed project consists of 27 detached, single-family, market-rate homes. The proposed project would include a homeowner's park. Landscaping would be incorporated into the park area as well as the residential area.	<b>Neg</b>	02/16/2005
2004111121	Specific Plan Amendment (SPA 04-1) and Tentative Tract Maps 31807 & 31808 Hemet, City of Hemet--Riverside The proposed project is an amendment of the Land Use Plan of the Page Ranch Planned Community Master Plan (PCD 79-93) and two Tentative Tract Maps. The amendment of the Land Use Plan for PCD 79-93 involves changing a 10 acre site from Commercial to High Medium Density Residential (17 du/ac) located at the northeast corner of Warren Road and Mustang Way and the addition of Residential Design Guidelines. The Tentative Tract Maps are the division of 154.77 acres into	<b>SIR</b>	03/07/2005

	611 residential lots, an active adult community center, and pocket parks/open space. The proposed project site is within the Specific Land Use Plan for the Southwest Area and the approved Page Ranch Planned Community Master Plan.		
2003011027	Halpain Tentative Parcel Map; TPM 20554; LOG No. 00-14-067 San Diego County Department of Planning and Land Use --San Diego The project proposes to allow for an amendment of TPM 20554 conditions C-b & f to require 6" of decomposed granite instead of AC-3 in accordance with the County of San Diego Standards for Private Roads and the San Diego Rural Fire Protection District.	<b>NOD</b>	
2003091138	Revised Bridge Street Project Tract 2560, GP/R/TR 64-03 San Luis Obispo, City of San Luis Obispo--San Luis Obispo The project is a 17-lot Planned Development with 16 lots proposed as residential home sites and one lot reserved for an 8-unit airspace commercial condominium development adjacent to the creek and the Bailey Bridge building. The existing General Plan map designates the 7.73-acre site as manufacturing with a large portion of the site above the 175-foot contour designated as Conservation / Open Space. The amendment will designate 2.19 acres as Medium-Density Residential, with 24,284 SF remaining in manufacturing (M zone) adjacent to Bridge Street and 5.06 acres on the hillside remaining in Conservation / Open Space. Part of the General Plan Amendment would modify the location of the development limit line from the 175-foot contour up to the 185-foot contour at the base of the South Street Hills.  The new Zoning Designation on the property would replace the Manufacturing district with Medium-Density Residential for property below the 185-foot contour. The narrow portion of the property adjacent to Bridge Street and the Bailey Bridge building would remain within the Manufacturing district. A Planned Development overlay zone would be created to govern the specific property development standards for the development, allowing unique lot sizes and interior lot setbacks as well as control incompatible industrial uses. The applicant is requesting to adjust the development limit line from the 175-foot contour to the 185-foot contour to accommodate reasonable site development for some of the residential dwelling units. The property between the 175 and 185-foot contours is currently within the Open Space (C/OS-5) district and the applicant's request includes amending a portion of the existing open space zoning to medium density residential (approximately 13,140 SF).	<b>NOD</b>	
2004041054	Barger-Haralambos Waterfowl Property Fish & Game #7 --Inyo The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2003-5103-R6 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Carla Scheidlinger, representing Agrarian Research, Inc. The proposed project is to create habitat for migratory waterfowl for the purpose of recreational hunting, and for the aesthetic values of wetland habitat. The ponds will be supplied with water from wells to be drilled on the property, the water from which will be used exclusively on the property.	<b>NOD</b>

<b><u>Documents Received on Tuesday, January 18, 2005</u></b>			
	executed simultaneously.		
2004102049	Regan/GRE Subdivision Project Ione, City of Ione--Amador The subdivision of approximately 86 acres to create 277 residential lots and a Conditional Use Permit (CUP) in the southeastern portion of the City of Ione. The project includes 243 single-family lots, 20 duplex lots and 14 estate lots. The project also includes approximately 5.1 acres of parkland and 13.4 acres of open space.	<b>NOD</b>	
2004102072	Bolton Minor Subdivision and Non-Commercial Tree Removal in the Coastal Zone Humboldt County Community Development Services --Humboldt The minor subdivision of a 22-acre parcel into two parcels of 5 and 17 acres each. The project involves acquiring access through a neighboring property, which was recently subdivided. This requires a modification of that subdivision, Case # FMS-02-01 (Furtado) and a CUP for crossing prime ag soils. The project also will include non-commercial tree removal to create a buildable area on the proposed parcel. The property is currently developed with the owner's residence and a small cabin. The existing residence is, and the proposed residence will be, served by community water and sewer provided by MCSD. The applicant has obtained a qualified geologist to prepare a Fault Evaluation Report (FER) per the requirements of the Alquist-Priolo Fault Hazard Special Studies Zone. The proposed parcel is located within the Coastal Zone; this project also includes a CDP for a future +/- 2,000 SF residence.	<b>NOD</b>	
2004111096	Line C - Church Street Drainage Realignment Project Highland, City of Highland--San Bernardino The Line C - Church Street Drainage Realignment Project includes the realignment and extension of an approximately 1,020-foot long open storm drain channel, located adjacent to Church Street, from Merris Street to Elder Creek, within the City of Highland, San Bernardino County. An existing shallow earthen swale occurs along the proposed alignment, which was historically used to convey flows to Elder Creek. Within the past several years, a small earthen berm was constructed in this swale, which diverts flows at a 90-degree angle into an open field. These flows cut a shallow channel at a 90-degree angle from the Line C ditch, and currently support some mixed riparian vegetation. The proposed project is intended to restore historic drainage patterns and redirect existing flows into Elder Creek to prevent flooding which could threaten public safety and adjacent property.	<b>NOD</b>	
2004112072	Cormany Tentative Parcel Map - TPM 4-03/04-13 Plumas County --Plumas Tentative parcel map to divide 315.7 acres into two parcels of 161.33 acres and 154.37 acres.	<b>NOD</b>	
2004112098	Wilcox Truck Climbing Lane Caltrans #2 Red Bluff--Tehama The project scope includes the construction of a truck climbing lane and shoulder in the median, construction of a paved turnaround in the median, installation of median barrier, rehabilitation of the existing northbound lanes within the project limits, installation of closed circuit television cameras and necessary drainage	<b>NOD</b>

<b><u>Documents Received on Tuesday, January 18, 2005</u></b>			
	Safety Code, Section 25356.1(h)(1). The RAW has been prepared to address the removal of metals, polychlorinated biphenyls (PCBs) and dioxin and furans in soil at the proposed Kennedy Middle College High School site. The contaminated soil is located beneath a 4-foot to 9-foot thick blanket of fill soil. Approximately 6,600 cubic yards of contaminated soil will be removed. Although the site does not pose a risk under its current condition, the levels of soil contamination would pose a risk if the site is used as a school.		
2005018162	<p>Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) Interim Removal Actions at Installation Restoration Program (IRP) Sites 4 and 6, Toxic Substances Control, Office of Military Facilities --Los Angeles</p> <p>IRP Site 4, Vehicle Washrack and Leaking Underground Storage Tank is located in the southeastern portion of AFP 42, 340 feet southeast of Runway 4-22. Field investigations indicated the presence of arsenic in the drainage swale. The proposed interim removal action includes excavation of an area approximately 60 feet long by 9 feet wide by 2.5 feet deep and the disposal of an estimated 50 cubic yards of contaminated soil off-site.</p> <p>IRP Site 6, Original Fire Training Circle is located in the south-central airfield portion of AFP 42, approximately 400 feet southeast of Runway 4-22. Field investigations have indicated the presence of polychlorinated biphenyls (PCBs) at 13.1 mg/kg for Aroclor 1248 and pesticides. The proposed interim removal action includes excavation of an area approximately 62 feet long by 24 feet wide by 6 feet deep and the disposal of an estimated 460 cubic yards of contaminated soil off-site. Standard engineering/construction practices, such as water spray, will be used to control potential dust emissions during excavation activities. Personal air monitoring for worker safety and continuous dust generation monitoring will be conducted by field staff to ensure compliance with Mohave Desert Air Quality Management District regulations. The excavated soils will be placed into designated bermed areas.</p> <p>The final cleanup goals have been established as 9 mg/kg for Arsenic, which is the background level for AFP 42, and 0.27 mg/kg for Aroclor 1248, 0.094 mg/kg Aldrin, and 0.099 mg/kg Dieldrin. Upon completion of field activities, if the sites are not suitable for unrestricted land use, institutional controls will be employed to ensure long-term protectiveness of the remedy and to restrict Sites 4 and 6 to industrial use only.</p> <p>Following waste characterization, the contaminated soil will be manifested and disposed of as non-RCRA hazardous waste at a permitted hazardous waste disposal facility in Arizona.</p> <p>After removal of contaminated soil, the sites will be backfilled with clean soil to restore the sites to their original condition. The time necessary to complete the interim removal action is two days for Site 4 and five days for Site 6.</p>	NOE	
2005018163	<p>Valle Lindo High School Expansion Site, No. 2 Toxic Substances Control, Environmental Protection Agency El Monte--Los Angeles</p> <p>The Removal Action Work Plan (RAW) proposes to excavate approximately 3,900 total cubic yards of contaminated soil up to 7.5 feet. The contaminant of concern is a metal, arsenic. Arsenic concentrations range from 0.27 mg/kg to 178 mg/kg. Impacted soil will be removed for disposal off-site. Confirmation samples will verify the site-specific cleanup goal for arsenic has been achieved.</p> <p>In order to prevent any potential exposure to the chemical of concern by adjacent</p>	NOE	

## CEQA Daily Log

Documents Received during the Period: 01/16/2005 - 01/31/2005

<b><u>Documents Received on Tuesday, January 18, 2005</u></b>			
	<p>faculty, staff, students, residents and site personnel, students and staff and a start work notice will be issued to adjacent residents requesting that they keep their windows closed during the field activities, and the excavation areas will be controlled to avoid dust generation with physical barriers and soil wetting. Additionally, airborne dust monitoring will be conducted using real-time, data-logging aerosol monitors, to verify and document the effectiveness of dust suppression in the work zone and the immediate perimeter, including the fence-line of the nearest receptors, during the field activities. No excavation will be conducted in times of high wind conditions.</p> <p>The site will be secured using temporary chain-link fencing with locked gates to restrict unauthorized access to the stockpiles and work area. The RAW provides additional field provisions to be put in place, in the event of adverse weather, to control run-off, ponding or erosion. Excavation, confirmation sampling, waste soil characterization sampling and off-site disposal activities for the impacted soil, and backfill and site restoration are expected to take approximately 35 calendar days to complete.</p> <p>Excavated soil will be placed in a temporary staging area until soil profiling is complete and the uncontaminated soil is used as backfill, and the remaining stockpiles are transported off-site for disposal. The soil will be stockpiled on impermeable material and covered with tarps to prevent run-on and/or dust generation and bermed to contain any run-off, or placed in covered roll-off bins. The excavated soil is estimated to require removal by approximately 300 trucks, covered, and transported under proper manifest to the pre-approved facilities for disposal. All vehicles will be decontaminated prior to exiting the loading area. Transportation of contaminated soils will be on arterial streets and/or freeways, minimizing any potential impact on the local neighborhood. Trucks will be staged to avoid impacts on the local streets. Transportation will be timed to avoid rush traffic hours. Transport of the material will be conducted in accordance with the transportation plan included in the RAW, prepared under the Cal-EPA DTSC Transportation Plan Preparation Guidance for Site Remediation, 1994. This will minimize potential health, safety, and environmental risks resulting from the movement of material and/or equipment during site cleanup.</p>		
2005018164	<p>Landscaping and Irrigation Caltrans #2 Red Bluff--Tehama</p> <p>Caltrans is proposing to install landscape planting and irrigation systems along I-5 in the City of Red Bluff. Additional safety and maintenance items will be included such as maintenance access road, safety cable, water pollution control requirements and maintenance vehicle pullouts. No archaeological sites or endangered species are within the project area. No additional R/W or regulatory permits will be required.</p>	NOE	
2005018165	<p>Elkwood Parking Lot Renovation/Repair (MF 344) Imperial Beach, City of Imperial Beach--San Diego</p> <p>Repair/replacement and renovation of fencing and landscaping of the Port District's Elkwood Parking Lot.</p>	NOE

2003081022	Selma Wal-Mart SuperCenter Selma, City of Selma--Fresno The subdivision of approximately 40 acres into approximately 13 parcels for the construction of a retail commercial center consisting of a single retail commercial use (Wal-Mart Super Center) up to 225,000 SF with an additional adjacent 175,000 SF of retail space. The project will include annexing land into the City of Selma, the extension and installation of infrastructure such as water, sewer, utilities and storm drainage system, and significant improvements to existing streets.	<b>NOD</b>	
2004051035	ENV-2003-7893-MND Los Angeles City Planning Department --Los Angeles Revise the existing Solid Waste Facilities Permit to increase waste receipt from 1,500 tons per day to 1,785 tons per day and allow public loading outside of the transfer station building.	<b>NOD</b>	
2004051078	Interstate 10 Median Mixed-Flow Lane Widening Project Caltrans #8 Redlands--San Bernardino Caltrans proposes to widen Interstate 10 from six to eight lanes from Postmile 30.8 to 33.3. Work includes construction of two mixed-flow lanes in each direction, construction of soundwalls in six locations along I-10, and widening of 11 bridges.	<b>NOD</b>	
2004072017	Hazel Creek Tunnel Repair Project El Dorado Irrigation District --El Dorado The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2004-0395-2 pursuant to the Fish and Game Code to the project applicant, El Dorado Irrigation District. Repair of the covered outlet portal and downstream channel that conveys water to Jenkinson Lake.	<b>NOD</b>	
2004112057	North Tahoe Regional Park Soccer, Track, and Field Facility North Tahoe Public Utility District --Placer The North Tahoe Public Utility District is proposing to construct a regional soccer field and track facility near Gun Club Road in the North Tahoe Regional Park in Tahoe Vista, California. The proposed facilities will include a soccer field, and other track facilities, including 2 long jump / triple jump pits, a high jump pit, 2 pole vault pits and a shot put area and support parking.	<b>NOD</b>	
2004121080	Valley View Education Center and Adult School Chaffey Joint Union High School District Ontario--San Bernardino The project site consists of approximately 7 acres of disturbed land immediately adjacent to Dorothy Gibson County High School and Valley View High School. The Chaffey Joint Union High School District proposes to construct a new Educational Center and Adult School facility in order to provide adequate school facilities for the residents within the District. The proposed education center facilities will include up to 20 new classrooms and ancillary facilities with a maximum capacity of 840 students per day. Both the Education Center and Adult School include classes throughout the day. The number of students at the site at any one time varies throughout the day. The maximum number of students that would be on campus during the day would occur from 12:30 pm to 1:45 pm. The ancillary facilities located on the campus include administration buildings, study labs, restroom	<b>NOD</b>

2005011094	<p>South Court Facility Orange County --Orange</p> <p>The proposed project consists of the construction of a new three-story courthouse, potential new City Hall building, potential library expansion, and parking structure, and the demolition of the existing public defender and district attorney buildings. The courthouse would be built with 14 new courtrooms, office locations, courtyard/plazas and pedestrian pathways, payment window, court support and jury facilities, a secure sally port used to transfer custodies, and secured parking area for judges. Development of the new courthouse would add a total of approximately 192, 500 building gross square feet (BGSF) to the existing structure for a total of approximately 222, 500 BGSF. The potential new City Hall would be located near the southern project boundary and is proposed to contain approximately 40,000 gross square feet within a two-story structure. The potential library expansion would result in an additional approximately 19,600 square feet and would occur adjacent to the existing site driveway off Crown Valley Parkway. The project proposes to include approximately 1,410 parking spaces, consisting of both surface parking and the construction of a new parking structure.</p>	<b>NOP</b>	02/22/2005

1980052102	CONTINUATION OF PICNIC/FISHING/CAMPGROUND EXPANSION, WAIVED Padre Dam Municipal Water District  -- This project will improve and expand existing camping, day-use, fishing, and picnicking facilities surrounding the Lakes. Campsites will be located so as to capitalize on the experience of camping near the Lakes. All existing structures will be architecturally renovated to match new buildings and give the entire complex a "woodsy" lakeshore theme. Hundreds of new trees, shrubs, and vines will be planted to give picnickers and camper alike a shady, restful setting and to provide a buffer between the the Recreation Area and surrounding residential developments.	<b>NOD</b>	
2000042100	California Concrete Crushing, P99-109 Sacramento, City of Sacramento--Sacramento The project consists of a Special Permit Minor Modification to allow: the internal relocation of operations of the California Concrete Crushing Facility; the addition of a portable truck scale dedicated to C&D operations; the addition of mechanized C&D pick-line equipment; and the addition of wood grinding to onsite operations. This relocation of operations and the additional equipment will be used to process the approved 2,000 TPD of incoming Type A inert and C&D debris (C&D debris not to exceed 500 TPD) and 5,000 TPD of outgoing debris.	<b>NOD</b>	
2001021065	University of California Merced Campus University of California Merced--Merced The Joseph Edward Gallo Recreation and Wellness Center is designed at approximately 35,693 GSF (24,985 ASF). The building would contain a gymnasium, a student health and wellness center, sports instruction space, cardiovascular/weight room, locker room, public lobby and reception, and a small administrative office suite. The Recreation and Wellness Center building would be developed on the same 1.38-acre site, between the Student Housing buildings to the southwest and the Kooligan Library building to the northeast, as described in the Final EIR.	<b>NOD</b>	
2002102092	2003 Long Range Development Plan University of California Davis--Yolo The proposed project is the construction of a multi-use stadium with seating for 10,000 spectators. The complex would contain enclosed stadium support facilities (restrooms, concessions, press box, operations space, team locker space, equipment storage, and sports medicine room) totaling 30,231 gross square feet.	<b>NOD</b>	
2003081023	2004 Long Range Development Plan (LRDP) University of California La Jolla--San Diego The proposed project is the expansion of the San Diego Supercomputer Center. The proposed addition is 79,680 gross square feet, and will physically connect with the existing facility. The expansion will provide an additional 7,000 assignable square feet of computer machine room space and 43,265 assignable square feet of offices, an auditorium, computer laboratories, conference rooms, administrative support space, as well as classrooms. The proposed addition is composed of two five-story wings, joined by a central lobby.	<b>NOD</b>

1992013033	Noble Conditional Use Permit Modification CUP-19-94M Humboldt County Planning Department Eureka--Humboldt The original project approved the following: "the annual extraction of up to 200,000 cubic yards of river-run sand and gravel aggregate from a 3-mile stretch of the Van Duzen River near its confluence with Yager Creek. The extraction method will be "bar-skimming" - where the upper portion of exposed point bar materials is scraped horizontally to a depth no less than one foot above the elevation of the live stream. Mined materials will be transported to five stockpiling sites where they await further transport to other sites for processing. No on-site processing is proposed. Stockpiled material will transit the site either by railcar along the Northcoast Railroad Authority's Eel River Canyon line, or by truck over one of three routes - River Bar Road, South Fisher Road, or Odd Fellows Park Road - onto State Highway 36." The modification involves the addition of processing of materials mined on-site including crushing, screening and washing. No increase in extraction is proposed. The original permit was approved in 1997.	Oth	02/23/2005
2000052055	CUP 99-23, Red Top Jersey Dairy Madera County Chowchilla--Madera The project consists of a request to approve a conditional use permit to allow an 8,478 animal unit dairy on a 126 acre portion of a 1,192 acre site. The dairy would house approximately 4,800 Jersey milk cows, 782 dry cows, 3,865 heifers, and 630 calves. Facilities developed within the 126 acre production site are to include a 23,928 SF milking barn, 8 enclosed freestall barns, a special herds barn, a commodity barn, seven hay barns, a silage slab, a calf nursery, feed lanes, open corrals, service roads, 8 solids ponds and two lagoons. The remaining 1,066 acres within the project area will be utilized for the growing of field crops and will be available for the disposal of liquid and solid waste generated by the operation.	NOD

The project site is located at 9568 Estates Drive in the City of Gilroy in Santa Clara County. SAA # 1600-2005-0006-3.	<b>NOD</b>	
2004121040	El Monte Junior High School Expansion Cutler-Orosi Unified School District --Tulare Gym, library, 14 classrooms, parking lot, central kitchen, multi-purpose room and site improvements.	<b>NOD</b>	
2004121080	Valley View Education Center and Adult School Chaffey Joint Union High School District Ontario--San Bernardino The project site consists of approximately 7 acres of disturbed land immediately adjacent to Dorothy Gibson County High School and Valley View High School. The Chaffey Joint Union High School District proposes to construct a new Educational Center and Adult School facility in order to provide adequate school facilities for the residents within the District. The proposed education center facilities will include up to 20 new classrooms and ancillary facilities with a maximum capacity of 310 students per day. The proposed Adult School will include up to 10 new classrooms and ancillary facilities with a maximum capacity of 840 students per day. Both the Education Center and Adult School include classes throughout the day. The number of students at the site at any one time varies throughout the day. The maximum number of students that would be on campus during the day would occur from 12:30 pm to 1:45 pm. The ancillary facilities located on the campus include administration buildings, study labs, restroom buildings, outdoor sheltered areas and two small play yards.	<b>NOD</b>	
2004121094	Citrus Community College District Facilities Master Plan Citrus Community College District Glendora--Los Angeles The project consists of implementation of the Citrus Community College District Master Plan that proposes the development of several new buildings, remodels of existing space as programs are moved to new locations, infrastructure upgrades and site improvements. The Master Plan addresses the facilities needed to meet the projected enrollment of 17,100 students (includes 2,500 non-credit students) from the current enrollment of 11,109 students (year 2003/2004).	<b>NOD</b>

1990020181	<p>Precise Plan Area #20NW Modesto, City of Modesto--Stanislaus</p> <p>These applications propose to develop about 50 acres to create 314 residential lots for a total of 358 dwelling units within Precise Plan Areas 23 and 24. The proposal includes 100 Alley Home lots and 19 conventional lots in Precise Plan Area 23. There are 44 second dwelling units within the Alley Homes that will be subject to affordability covenants. There are 131 Court Home lots and 64 conventional lots proposed in Precise Plan Area 24.</p>	<b>NOD</b>	
1995031031	<p>State Route 905 Extension San Diego, City of San Diego--SAN DIEGO</p> <p>The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2004-0426-R5 pursuant to Section 1602 of the Fish and Game Code to the project applicant, California Department of Transportation. The applicant proposes to alter the stream to conduct mud rotary (wet) drilling in the areas of bent and abutment locations to collect soil samples for the future construction of a bridge spanning Spring Canyon and near Britannia, as part of the 905 Highway project. Access to the drill sites in Spring Canyon will require a 10-foot wide access road, free of vegetation and debris. The drill sites must also be clear. Prior to drilling activities, the Operator will clear and grub the proposed access paths and staging areas as shown on the submitted layout. No area beyond the access paths and staging areas, as defined on the layout, will be subject to disturbance. At the Britannia location, access will be through a disturbed parcel. A total of 9 borings are anticipated - 4 at the Spring Canyon location and 5 at the Britannia location. Bore holes are 6-inch maximum in diameter, and are approximately 150 feet in depth. All samples and bore cuttings will be contained during drilling and bagged or drummed for transport. Bore holes will be backfilled with bentonite pellets or other approved material. All disturbance will be within the footprint of the upcoming 905 Highway Project. The project is located just south of Otay Mesa Road, at Spring Canyon and near Britannia in the Otay Mesa area of San Diego County.</p>	<b>NOD</b>

<b><u>Documents Received on Tuesday, January 25, 2005</u></b>			
	<p>MGD. The proposed expansion would include the following major items to be added, modified, or upgraded as part of the project:</p> <ul style="list-style-type: none"> <li>- Septage Handling</li> <li>- Preliminary Treatment</li> <li>- Secondary Treatment</li> <li>- Disinfection</li> <li>- Waste Activated Sludge Thickening</li> <li>- Sludge Dewatering</li> <li>- Electrical Buildings</li> <li>- Influent Pumping</li> <li>- Primary Treatment</li> <li>- Tertiary Treatment</li> <li>- Effluent/Utility Water Pumping</li> <li>- Sludge Digestion</li> <li>- Digester Gas Handling</li> <li>- Yard Improvements</li> </ul>		
2004111069	<p>Phase I, Regional Brine Pipeline Eastern Municipal Water District Perris--Riverside</p> <p>Eastern Municipal Water District (EMWD) is implementing a desalination program in accordance with its Water Facilities Master Plan updated in December 2002. The purposes of the program are to 1) preserve high quality groundwater by controlling movement of brackish groundwater into the Lakeview subbasin; 2) control rising groundwater and manage long-term salinity of groundwater where recycled water is used extensively; and 3) improve reliability by development of a local water supply as a means of decreasing dependence on imported water.</p> <p>The desalination program calls for three desalination facilities. The first facility, the Menifee Desalter, was placed into service in the fall of 2001. The second facility, the Perris Desalter, is currently being constructed adjacent to the Menifee Desalter at the Sun City Regional Water Reclamation Facility (PVRWRF). Each facility will generate approximately one million gallons per day of waste brine that requires disposal. Waste brine from the Menifee and adjacent Perris Desalter can be discharged to EMWD's existing on-site brine line that extends to the Lake Elsinore area, and from there into the Temescal Valley Regional Interceptor for ultimate conveyance to the Santa Ana Regional Interceptor, a regional industrial wastewater treatment system serving portions of western Riverside County. However, the siting of the third Perris II Desalter at the PVRWRF will require a brine pipeline to convey waste brine to the existing non-reclaimable waste pipeline at the Menifee Desalter.</p> <p>The proposed project consists of the construction of approximately 19,800 lineal feet of 18-inch diameter brine conveyance pipeline. The pipeline will extend south along Murrieta Road within the existing right-of-way for approximately 18,950 lineal feet from Watson Road to Valley Boulevard and then continue westerly within the SCRWRF adjacent to Salt Creek for approximately 850 lineal feet to connect to the existing brine line at the Menifee Desalter Plant. Upon completion, the brine pipeline will provide efficient, reliable brine waste conveyance for the future Perris Desalter II.</p>	<b>NOD</b>

<b><u>Documents Received on Wednesday, January 26, 2005</u></b>			
2005011118	Special Use Permit No. PSP-05-003 Tulare County Resource Management Agency Visalia--Tulare Special Use Permit to allow a private club for recreational purposes (radio-controlled airplanes).	<b>CON</b>	02/08/2005
2003122012	Clear Lake Integrated Aquatic Plant Management Program Lake County Community Development Department Clearlake, Lakeport--Lake The proposed program was developed to offer a palette of techniques for the management of nuisance and invasive aquatic weeds that have increasingly impaired beneficial uses of Clear Lake over the past two decades. It also provides for outreach, public education, and research activities in support of improved pest management efforts, and is tailored to integrate with other management programs already in place, such as the CDFA's Hydrilla Eradication program.	<b>EIR</b>	03/11/2005
2004092051	The Preserve at Sunridge Rancho Cordova, City of --Sacramento The Preserve at Sunridge project would include low and medium density single-family residential, high density multi-family residential, commercial and office, neighborhood and community parks, an elementary school, detention/water quality basins, parkway/drainage corridors, open space/wetland preserve, pedestrian facilities, bikeways, and landscape corridor land uses on the approximate 530.1-acre site.	<b>NOP</b>	02/24/2005
2004111058	Valley Region High School No. 5 Los Angeles Unified School District San Fernando--Los Angeles LAUSD proposes to construct a new high school (grades 9-12) campus on the project site. The campus will consist of four separate "Small Learning Communities" (SLC). The proposed project would provide 2,160 two-semester seats for grades 9-12. At completion, the project would accommodate approximately 190,000 SF of building space and include 79 classrooms, 70 of which would be regular classrooms and nine of which would be special education classrooms. The high school would also include performing arts/music facilities; physical education/athletic facilities including a gymnasium; library/media center/multipurpose room; food services; a student store; a career center, and associated support facilities, such as workrooms, administration areas, restrooms, storage rooms, and health offices. The new high school would provide relief to Sylmar High School and San Fernando High School.  The first Phase of the project would include 1,620 two-semester seats and approximately 160,000 SF of building space. This phase would include three SLCs as well as all the supporting facilities listed above for the full campus. It is anticipated that the proposed school will open in 2010.  LAUSD proposes to add one additional SLC providing 540 seats to accommodate future growth in the project area. It is anticipated that the proposed fourth SLC will open in 2015 and will consist of approximately 32,000 SF and include 19 classrooms. The fourth SLC may also accommodate limited use for adult education.  The 16.5-acre proposed project site is comprised of one parcel and is currently	<b>NOP</b>	02/24/2005

1993013045	<p>Sonoma State University Master Plan Revision EIR California State University, Sonoma Rohnert Park--Sonoma</p> <p>The 116,000 SF complex consists of the Green Music Center, the Music/Faculty Office Building, and a Conference Center. The Green Music Center contains a 1,400-seat concert hall and supporting backstage to accommodate large performances in the music and fine arts programs. The concert hall venue, though funded by donor funds and partnered with the Santa Rosa Symphony, will be driven by academic curricular considerations. The Music/Faculty Office Building will provide instructional capacity for 300 FTE and 20 faculty offices. The Conference Center will provide banquet, meeting, and restaurant facilities capable of serving groups as large as 600 and as small as 60. The complex will directly benefit Sonoma State University students, faculty, and the community at large in providing a first class complex for teaching, learning, and performance for the performing arts curriculum, community outreach program, and teaching partnerships. The building is designed around a central courtyard with ceremonial arcade entrance.</p>	<b>NOD</b>

The project is proposed in part to comply with the seismic upgrade requirements of the Alfred E. Alquist Hospital Facilities Seismic Safety Act of 1994 (SB 1953). The existing hospital will be demolished after the replacement project is built. The replacement project will consist of an approximately 440,000 SF, six to seven story hospital building, attached to an approximately 150,000 SF, five story medical office building, and a separate parking garage with approximately 809 spaces, as well as approximately 681 surface parking spaces. The project additionally includes a helipad and various street and pedestrian improvements.</p>	<b>NOD</b>	
2004112026	<p>Simulation Center Project, California State University, Maritime Academy California State University Trustees Vallejo--Solano</p> <p>The California Maritime Academy Simulation Center will provide a 21,000 GSF facility, consolidating the location of eight simulators in support of the marine transportation curriculum with computer-based simulation laboratories where real ship situations can be replicated with contemporary equipment. The project will provide lecture space for 84 full-time equivalent students as well as laboratory space and faculty offices. This project also includes demolition of the receiving and physical plant buildings to provide better utilization of this site within the academic core of the campus, consistent with the physical master plan. The 2-story, steel braced frame structure has three main components: a classroom and office block clad in metal panels; two full mission bridge simulation "drums"; and, a continuous window wall fenestration along the western facade that will allow maximum daylight for offices and public spaces in the building.</p>	<b>NOD</b>

2000014004	Merced Wild and Scenic River Comprehensive Management Plan/EIS National Park Service Yosemite Village, Wawona, El Portal--Mariposa, Madera Produce a revised comprehensive management plant that protects and enhances the Merced Wild and Scenic River, develops a user capacity program, re-examines the river area boundary, and makes appropriate revisions to the park's 1980 General Management Plan.	<b>Oth</b>	03/22/2005
1985120404	Village 34 GPA and Zone Change, City of Irvine Irvine, City of IRVINE--ORANGE The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2004-0538-R5 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Mr. Steve Letterly, The Irvine Company. The applicant proposes to alter the streambed and banks through the proposed geological data collection and testing within Veeh Creek, tributary to San Diego Creek, associated with the future extension of Lake Forest Drive. The proposed project consists of the drilling of two exploratory holes approximately 6-inches in diameter and 50-feet in depth that will be backfilled upon completion of the data collection. In order to perform the geological testing and data collection, the construction of an equipment mobility pad and a temporary access road will be required. Upon completion of the geotechnical exploration activities, all impact areas will be restored with native vegetation local to the area. The project shall not temporarily impact more than 0.20 acre of stream channel and associated riparian	<b>NOD</b>

	vegetation consisting of southern willow scrub, mulefat scrub and emergent marsh vegetation. The applicant shall mitigate 0.20 acre temporary impacts to native riparian vegetation at a compensation to impact ratio of 1:1, for a total irrigation obligation of 0.20 acre, and shall consist of on-site creation, restoration, and enhancement.		
2002042145	Humboldt Botanical Gardens Coastal Development Permit CDP 01-66 Humboldt County Planning Department Eureka--Humboldt The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the project applicant, Ms. Karen Angel representing Humboldt Botanical Gardens Foundation. The applicant proposes to remove and replace an existing culvert on Fault Creek, tributary to White's Slough.	<b>NOD</b>	
2002082064	Northstar-at-Tahoe Mountain Improvements Placer County Planning Department --Placer The Conditional Use Permit entitlement package for the remainder of the mountain improvements included in the Certified EIR previously approved by the Planning Commission on November 18, 2004 was appealed to the Board of Supervisors denied the appeal and approved the project on January 18, 2005. The Mountain Improvement Project improvement plans are proposed to be constructed in phases, with construction anticipated to commence in the Summer of 2005 through the Summer of 2008. The Mountain Improvements Project (MIP) Final EIR was certified in June 2004 and is currently being constructed. The remaining components of the MIP include new ski lifts; replacement lifts and associated ski trails. All activities will occur on portion of the resort that is already developed for ski activity.	<b>NOD</b>	
2003022122	Siller Ranch (EIAQ-3735) Placer County Planning Department --Placer Project consists of 726 residential units, an 18-hole golf course and clubhouse, a par-3, 9-hole golf course, an amphitheatre, other recreational amenities, public and private trails and open space.	<b>NOD</b>	
2003041107	El Cuervo Norte Mitigation and Access Road San Diego, City of San Diego--San Diego The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2003-5201-R5 pursuant to Section 1601 of the Fish and Game Code to the project applicant, Michael Mezey, representing the City of San Diego. The applicant proposes to alter the streambed of Los Penasquitos Creek, tributary to Los Penasquitos Lagoon, tributary to the Pacific Ocean, to accommodate the El Cuervo Norte Mitigation Project. The project will implement wetland habitat restoration activities potentially resulting in the creation and enhancement of approximately 24.08 acres of wetland habitat. Wetlands created and enhanced at the El Cuervo Norte mitigation site would provide mitigation for impacts resulting from implementation of the State Route 56 Project, and several other City of San Diego projects. The mitigation project consists of clearing and grubbing of non-native vegetation, grading and filling, erosion control, irrigation system installation, plant and seed installation and maintenance. Several agricultural berms located throughout the site will also be breached. 1.25 acres of	<b>NOD</b>

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Monday, January 31, 2005</u></b>			
2005018367	Maintenance Dredging at Napa Valley Marina Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland Napa--Napa Maintenance dredging of approximately 42,500 cubic yards of sediment from the entrance channel and docking areas of the marina, to a project depth of -10 feet mean lower low water, with a one-foot overdredge allowance. Sediment will be removed from the marina basin with a hydraulic suction dredge and pumped to a contained upland settling basin where it will be dried and prepared for reuse onsite as a landscaping material.	<b>NOE</b>	
2005018369	Renewal of NPDES Permit No. CA0105015 for Calipatria Municipal Wastewater Treatment Plant Calipatria, City of Calipatria--Imperial Existing permit expires April 12, 2005. California Regional Water Quality Board Order No. 00-002, CA0105015 requires City of Calipatria to file application 180 days prior to expiration date. Renewal of permit will benefit the residents, schools, commercial businesses, industrial operations, and Calipatria State Prison presently receiving sewer service from City of Calipatria.	<b>NOE</b>	
2005018370	Streambed Alteration Agreement Concerning San Diego River Fish & Game #5 --San Diego The Operator proposes to alter the stream to remove invasive exotic vegetation including arundo and tamarisk. Hand tools will be used for vegetation removal. Native vegetation will not be removed; however, some native vegetation will be pruned. No earthwork or soil disturbance is being conducted for this project.  SAA# 1600-2004-0545-R5	<b>NOE</b>	
2005018371	Power Drop for Interim Visitor Center - Modular (04/05-CD-15) Parks and Recreation, Department of --San Diego Project consists of extension of an existing SDG&E powerline to bring electricity to the modular building serving as Cuyamaca Rancho State Park Interim Visitors Center. The project will extend the existing powerline by one pole crossing Cold Stream Creek to the east near the modular building. Another smaller pole for the electrical meter will be installed just north of the building. Trenching (24" depth) will extend from this smaller pole to the building. The large and small powerline poles will be sited to avoid the need to trim oak trees in the vicinity. An archeologist will be on-site to monitor all excavation/trenching activities to avoid significant impacts to cultural resources.	<b>NOE</b>	
2005018372	Streambed Alteration Agreement Concerning San Diego River Fish & Game #5 --San Diego The Operator proposes to alter the stream to remove invasive exotic vegetation including arundo and tamarisk. Hand tools will be used for vegetation removal. Native vegetation will not be removed; however some native vegetation will be pruned. No earthwork or soil disturbance is being conducted for this project.	<b>NOE</b>
